PROJECTS

Horoscope Prediction Website

Full Stack development of a horoscope predicting website focusing on key features of individuals based on their birthdate using HTML, CSS, JavaScript, and React.js for the frontend, and Node.js for the backend.

KBC Quiz Game

Developed a Python-based quiz game as part of a hackathon, incorporating features like competitive gameplay, appointment scheduling, and medical history tracking.

Travel Itinerary Website

Developed a full-stack travel itinerary website allowing users to plan, customize, and book their trips. Built using React.js for the frontend, Node.js for the backend, and MongoDB for database management.

Amazon Clone - E-commerce Database Project

Designed and implemented the database architecture for an Amazon-like e-commerce platform using MySQL. The project included customer, order, payment, and inventory modules, demonstrating strong skills in SQL schema design, data integrity, and relational database normalization.

CERTIFICATIONS

Good with Words Specialization (*University of Michigan*), **Foundations of Cybersecurity** (*Coursera*)

Cloud Data Engineering Specialization (*Duke University - Coursera*)

Strategic Leadership (*Dartmouth College - Coursera*)

EXTRACURRICULAR ACTIVITIES

Appointed as Discipline Head at ISTE Student Chapter, Chitkara University, Punjab.

Participated in a Blood Donation Camp at Chitkara University.

Achieved 3rd position in Inter-College Badminton Tournament.
